COACHELLA VALLEY MOSQUITO AND VECTOR CONTROL DISTRICT REPORT OF TRUSTEE'S ATTENDANCE AT CONFERENCE/SEMINAR

Trustee: Sergio Espericueta Name of Conference/Seminar: MVCAC 88th Annual Conference Date: January 26–29, 2020 Location: San Diego, CA

Significant points learned of benefit to the District and the community:

As a member of the CVMVC board of trustees, it is the first time that I have been attending a conference of this category.

l attended two trustees business sessions, focused on board governance best practices, the presenters explained California Government codes and our role in the board of trustees.

I also attended multiple presentations some focused on the invasive Aedes mosquitoes species in California, especially Aedes aegypti covering topics of prevention behaviors, pesticide resistance studies and public outreach ideas in response to detection of invasive mosquitoes, using social

media, community liaisons, government relations and local tv/radio.

I also attended presentations giving an update on CalSurv Gateway and new features of Cal Surv Maps.

I have the opportunity to visit the Exhibitor Showcase booths that offered a great variety of products, equipment and services for the Vector Control Districts, the explanations given by their representatives were detailed and very educational.

COACHELLA VALLEY MOSQUITO AND VECTOR CONTROL DISTRICT REPORT OF TRUSTEE'S ATTENDANCE AT CONFERENCE/SEMINAR

Trustee: Doug Kunz Name of Conference/Seminar: MVCAC Date: January 26 to 28, 2020 Location: Hyatt Regency Mission Bay, San Diego, CA

Significant points learned of benefit to the District and the community:

The Aedes aegypti mosquito came to the New World from Africa with the slave trade. It feeds exclusively on humans. It bites frequently and can survive without water. In the desert it has a long season, in fact longer than the native Culex mosquito. Aedes larva and eggs do not survive under 10 degrees F. Aedes and sociodemographics. More prevalent in older homes. Increased potted plants and number of rain exposed containers correlates with increased indoor incidence of indoor Aedes.

Mosquito fish give off pheromones that mosquitos can detect thereby decreasing the effectiveness of the fish in eliminating mosquitos. Mosquito fish depend on dissolved oxygen to gain weight and reproduce. Wind action and mechanical aeration increase dissolved oxygen. Migratory birds can have significant predation on the fish so it is important to protect the fish from them.

Infected male mosquitos with Wolbachia in one study showed a 74 to 85% suppression of mosquito numbers. As male mosquitos do not bite releasing Wolbachia infected males does not put the human population at greater risk of being bitten.

MVCAC Conference report

I attended the Mosquito Vector Control Association conference this week in San Diego, CA.

This conference is the statewide organization that combines all educational, operational, scientific and corporate stakeholders in learning about the latest mosquito control efforts. There are representatives from the CDC, State Heath officials, product vendors, and of course, mosquito districts. The conference offers educational courses for all components of the field.

The organizers of the conference provide very technical presentations for the vector ecologists and university researchers, as well as governance training and outreach seminars for Directors and Managers.

The open exchange format of the conference allows for fresh ideas to be shared and the results to be discussed.

Some projects that other districts discussed and may be considered by our District include:

- 1) Using NEXTDOOR app to target specific neighborhoods with outbreak and prevention information.
- 2) Consider a "Government relations" liaison to manage all the local cities and county's officials outreach. Do presentations to City Council's and Supervisor's meetings. Ongoing email outreach.
- 3) Geo-targeting with social media to reduce outreach expenses and gather more accurate analytic data.
- 4) Consider outsourcing our web page to test our site for PRA, Brown Act compliance and ADA exposure.
- 5) Restructure our site visits to make more of a "Property consultation" which requires owner to be present for increased education and eradication efforts, thus eliminating need to re-visit same sites.
- 6) Consider putting our response mapping information online for all residents to view. This allows for clients to see efforts in their neighborhoods, which may reduce service requests and complaints of no response by CVMVCD staff.
- 7) Consider a specific educational outreach position to purely do youth outreach. Studies show if we can educate the children, they will dump, drain, and wipe themselves. They will also be aware as they mature and thus reduce service call requests due to being educated on prevention methods. Also they will share knowledge with their adult families.

I think these conferences are a valuable resource for renewing our commitment to maintaining public heath. It is an honor and pleasure to see our CVMVCD District staff lead in the educational knowledge that we share with other Districts, Professors, and Corporate partners.

COACHELLA VALLEY MOSQUITO and VECTOR CONTROL DISTRICT REPORT of TRUSTEE'S ATTENDANCE **MVCAC 88th Annual Conference** January 26-29, 2020

Trustee: Doug Walker Location: San Diego, CA

Significant points learned of benefit to the District and the community:

On Monday (26th) afternoon there was a Governance Best Practices training session provided for Trustees. As a result of attending this informative two hour presentation, each of us received a certificate of completion. Tuesday morning found us at the Trustee breakfast meeting. Public information and outreach was emphasized at this early morning presentation. Following this session, I remained to participate as the substitute S. Calif. Region Representative in the Trustee Council Business Meeting. The Council elected officers for 2020, discussed a Trustee survey and possible topics for Trustee training at next year's conference. Wednesday morning I attended the MVCAC Board of Directors meeting.

Breakout sessions provided opportunities to hear speakers discuss topics including: pesticide resistance and management, mosquito operations and technology, and mosquito biology and disease. Kudos to five members of our District staff who spoke very professionally during the operations and technology portion of the conference. Presenters were: Richard Ortiz, Gregorio Alvarado, Salvador Becerra, Kim Hung and Jennifer Henke. Two well done posters (planning ULV applications in CV, and rearing invasive mosquitoes) were displayed in the MVCAC Poster Session, along with one from UCR relating to their District funded research about attractive toxic bait stations in the Coachella Valley.

It should be noted that our board stated a few years ago we wanted the District to actively participate at the state level in MVCAC (Mosquito & Vector Control Association of California). Currently, Jeremy Wittie and David I'Anson are on the Board of Directors, and we have a staff member serving on almost every committee. At this conference, the District had five Trustees in attendance. Clearly, CVMVCD is one of the most active districts in the State.

Re: Please enter this letter into the Public Record for the CVMVCD Public meeting held on January 14, 2020 (Board of Trustees Meeting – Written comments, Item: 13-A GM Employment agreement)

Dear CVMVCD Trustees and all concerned Residents,

Please be advised that the current CVMVCD General Manager (Mr. Wittie) and his new "agreement" for CVMVCD employment (2020). Was again reviewed by an ad hoc committee that suspiciously had two of the same Trustees that volunteered to serve on that special committee from last years ad hoc committee (2019). That was also assembled for the same purpose of reviewing the General Manager performance. The Palm Springs appointed Trustee was originally asked by the General Manager to apply to become a CVMVCD Trustee, and later appointed by the City of Palm Springs to the CVMVCD Board of Trustees. Because of the CVMVCD General Managers personal relationship with the Palm Springs resident and now CVMVCD (Trustee) that employed the General Manager's partner in his private former business in the past. That personal known relationship has the appearance of a possible conflict because of bias (unconscious and potentially known) that should have better monitored by the CVMVCD Board of Trustees and the CVMVCD legal counsel and of course the Trustees own ethics. It would have been appropriate to refrain from serving on such committee's where the CVMVCD General Managers yearly evaluation and pay raises plus one time financial pay-outs were the Issue.

This last year has been one of the worse Mosquito seasons "year round - now" that has been seen in the Coachella Valley. As mention before to this Board and CVMVCD administrators the advancements of under-educated and non-qualified employees to supervisory and other CVMVCD employment postions has directly endanger the health and safety of Residents and animals in the Coachella Valley. And those In-House advancements with out seeking external candidates was the responsibility of Mr. Wittie the current CVMVCD General Manager.

Please be advised that this Valley has and will continue to be Home for many people. And those people deserve better from Public funded organizations such as the CVMVCD that appear to be Interested in not providing effective service's to it's Resident's due to management deficiencies.

Re: Please enter this letter into the Public Record for the CVMVCD Public meeting held on January 14, 2020 (Board of Trustees Meeting – Written comments Non-Agenda topics)

Dear CVMVCD Trustees,

Please be advised that the CVMVCD Executive Committee Meeting which was held late-day on January 6, 2020. Only had myself and my guest as the only Public members of the community to witness the CVMVCD sub committees actions and provide Public testimony. Concerns were brought up to the committee members with regards to sub-committee meeting dates and time of day to hold such meetings – so more citizens can potentially be in attendance. But the CVMVCD Board President (Mr. Hassett) made statements that meeting times are made to accommodate the Trustees.

Please be reminded that the Appointed Trustee's - are Intrusted to performed the People's business and all efforts should be explored to Include the Public in those meetings. Also the CVMVCD General Manager (Mr. Wittie) made statements of Informing the Trustees of an Item at the Thermal CVMVCD property. But appeared to not want to make that Information available in the presents of the two members of the Public at that meeting. Please take notice that the CVMVCD Board President (Mr. Hassett) had made very open comments with regards to having the CVMVCD present a proclamation to him, for the CVMVCD participating in the 2020 Census. And stating that his Boss (Census employee) may be in attendance at the CVMVCD headquarters during that presentation.

It clear that the CVMVCD Board of Trustees President may be panding to one of his employers by using CVMVCD resources to aid in that endeavor. And combining that action along with past attempts to limit the Public's participation in addressing the sub-committee members of the CVMVCD (Executive Committee) and his approach upon the same citizen to suppostly clarify a Public speaking card, is very suspicious and could be easily describe as potential Intimidation. As you are well aware, of the complete change in the fundamental make-up of the long established (Since the district's existence) Public Comments agenda placement of the January 14, 2020 Board of Trustees Meeting. The new Public Comments agenda arrangement only adds limitations to the Public and removes the potential Influences and carefully crafted though that the Public would add to the discussions of topics of the CVMVCD. And reinforces the potential bias toward a member of the Public, that was orchestrated by actions of the CVMVCD (less Transparency and Public participation).

Dear CVMVCD Board of Trustees,

Please do not permit the continued mismanagement and excessive expenditures of the CVMVCD administration. The only concerns that should be address is safety of the Public, and that would Include updating the CVMVCD Headquarters to comply with all necessary ADA requirements. The proposed complete Remodeling of the CVMVCD administration building(s) is completely unnecessary and excessive.

Please consider reviewing the yearly updated CVMVCD mission statement and work to reduce the self gratifying In-house changes that appears to only serve to waste Public resources (tax Moines) for the possibility of Increasing future years CVMVCD "Benefit Assessments".

Re: Please enter this letter into the Public Record for the CVMVCD Public meeting held on January 14, 2020 (Board of Trustees Meeting – Written comments, Item: 11-E Contract services - Clean Excel)

Dear CVMVCD Trustees,

The Company that is called "Clean Excel" that has been contracted many times since the year of 2010 to perform Maintenance/Cleaning services for the CVMVCD. That Company has been able to keep securing the contract for services with the CVMVCD for many years. My understanding from last years contract and this years is their was a modest price Increase for services, that was explained because of the California minimum wage Increase. That Information is concerning due to the nature of the CVMVCD Public employees current wages and of course the grossly overpaid administrative postions of the CVMVCD management.

Companies that are employed and or contracted with the CVMVCD should be considered and required to pay their employees prevailing wages. If current contacted companies with the CVMVCD are not already paying their employees amounts higher that minimum wage, they should be – I don't believe that type of work would have other forms of Income as in "tips". Having met a few of the workers that were assigned to the CVMVCD Headquarters cleaning crew. They appeared to be strong workers and great people, having raise grown educated children on well below a living wage.

I would hope that the CVMVCD is more concern with "fair and just" contracts for services that pay their employees fairly, and less in the possibly connections to family relationships and or Influences that CVMVCD leaders/representatives may flex to secure one contract over another.

Thank you,

Dear CVMVCD Trustees,

Please be advised that the current CVMVCD retained legal counsel (SBEMP) may of acted under direct control of the CVMVCD General Manager (Mr. Jeremy Wittie) in it's many and unwelcomed correspondence that were mailed to my Home in the City of Rancho Mirage, CA. Over the time period of the past service contract with the Coachella Valley Mosquito and Vector Control District (Special District).

Having the CVMVCD use Public resources to have it's legal counsel (SBEMP) perform most every correspondences and also it's Public Records Requests that were requested for review should be alarming to every Resident that has allowed the CVMVCD to operate through it's continue Levied Perceived Benefit Assessment. If the CVMVCD legal counsel (SBEMP) has acted without direct control from the CVMVCD general manager and or the Board of Trustees. The actions that were taken should have been avoided - As demonstrated by a Cease and desist letter that was delivered to my Home on topics that were never clarified by the CVMVCD legal counsel (SBEMP) and what appears to be an attempt to Intermediate this Resident with a threat of litigation, for "yet" to be explained motivates from the CVMVCD.

But it's been documented that the CVMVCD legal counsel (SBEMP) has refused Public Records Requests based on miss-Information (case law) and has shown the ability to not be understanding of the Public's Non-governmental legal terminology for Information that was requested (not assisting the Public as required/recommended). Also the Issuing of letters that were not based in fact and misrepresent the true Issues/topics that appears to have not been verified by the CVMVCD legal counsel (SBEMP – Lena D. Wade). Also Brown Act violations were witness during open Public meeting that were orchestrated by CVMVCD legal counsel.

Re: Please enter this letter into the Public Record for the CVMVCD Public meeting held on January 14, 2020 (Board of Trustees Meeting – Written comments, Item: 11-B Correspondences)

Dear CVMVCD Trustees,

As you may be aware, the past two CVMVCD Board of Trustees Meetings had No Correspondences listed in the CVMVCD Board packet from any other Coachella Valley Resident assept from myself. That fact appears to possibly suggest that previous comments that were submitted from CVMVCD Supervisors and Administrators. That were heavily edited to restrict full customers names and complete addresses if any, and were usually submitted through direct management may have to be Investigated to confirm their existence. Or Supervisors/Administrators may not be releasing those "only" positive remarks to be published in the CVMVCD Board of Trustees agenda written minutes. And if that is true, its comparable to the potential manufacturing of positive feedback.

Please look into why their were No "Positive" remarks available from the Coachella Valley Residents for months?

Re: Please enter this letter into the Public Record for the CVMVCD Public meeting held on January 30, 2020 (Executive Committee) – Written comments (Non-Agenda Topics)

Dear CVMVCD Trustees,

At the last CVMVCD Board of Trustees Meeting and one of the CVMVCD Sub-committees it was mention that problems with the CVMVCD operations have continued to develop and to-date have not been repaired.

- The New CVMVCD website design (that was Impediment at great cost and rushed to be finance) has been difficult to access and has failed to allow long established links to connect. Other Information/Records have been removed (allowing less Transparency) and links to known appointed Trustee Information (City Government) have been disallowed.
- As mention before in another special letter addressed to the CVMVCD Board. Public comments have been "limited" at CVMVCD meetings, which has reduced Resident's Informed and active participation in and of the Public's business.
- The CVMVCD Issued Riverside County Inspect/Abate Warrant has been flawed and misused by CVMVCD administrators.

Please work to repair the Issues that were mention, and strive to Do-Better by not misrepresenting your organization and working to perform the service's that are expected and funded by the Resident's of the Coachella Valley. By not providing private associations Moines and other resources from this area that have No direct benefit to the Residents.

The CVMVCD general manager (Mr. Wittie) was Informed of a CVMVCD Public Health and safety sign that was not removed after the threat of disease in the area of Rancho Mirage, CA. It's alarming that this type of request/service has to rise to the CVMVCD director for action to happen. Please consider the removal of yet another such sign that has been in place for months after that areas heath disease crisis (2019). Sign location: SW corner of 62 Ave and Fillmore Street – Thermal, CA.

Re: Please enter this letter into the Public Record for the CVMVCD Public meeting held on January 30, 2020 (Executive Committee) – Written comments (Non-Agenda Topic – Public Testimony)

Dear CVMVCD Trustees,

Please be advised that your organization has been notified of the CVMVCD Administration's changes in the fundamental make-up of the CVMVCD listed agenda Items with regards to Public participation on Items of Public testimony. This appears to be a staff modification of the Public meeting due to the undocumented discussion from the CVMVCD Board of Trustees and or it's legal counsel on the unprecedented change to the CVMVCD Board of Trustees Meeting agendas that has been in existences since the district has been established, without any prior notice to the member's of the community. It's unclear why the CVMVCD staff would be allowed (without Trustee(s) direction) to modify a document and a well established method to allow for greater Public participation in the Coachella Valley Mosquito and Vector Control District meetings and operations.

The new and unadvertised changes for Public testimony at CVMVCD Public meetings will denied the potential speaker the same Information (Reports/comments) that the Trustees would be allowed to have/hear and view prior to CVMVCD Board action.

Please reconsider this very suspicious activity of changing the Public comments to limit the Public's participation in CVMVCD meetings. And as you are very well aware of the very small number of active Coachella Valley Residents that are able to attend the CVMVCD meetings, which I'm usually the only member from the General Public that attends the CVMVCD many different meetings, that are mainly very staff heavy, and has begun to activity attempt to limit the ability for participation in it's meetings of the Public's business.

Re: letter in response to CVMVCD legal counsel (SBEMP) letter dated: December 18, 2019

Dear CVMVCD Clerk of the Board (Graciela Morales),

Please consider reviewing the agreement and service contract with the CVMVCD retained legal counsel (SBEMP). This request is based in the blatant miss-Information from the Coachella Valley Mosquito and Vector Control District legal counsel (Slovak, Baron, Empey, Murphy & Pinkney LLP) acting Attoney: Lena D. Wade, ESQ. to perform the Public's business in an honest and ethical matter referring to the letter of December 18, 2019 from Lena D. Wade (SBEMP).

As you are aware, any package/letter that was claimed to have been mailed to me in November 2019, had not been properly sent if at all? And surely was not "refused" by me. As you are aware of how mail is delivered, and or returned to the sender. By having made such a false accusation, it demonstrated the ethical behavior by the CVMVCD legal counsel and how it's been severity compromised.

Overview: No agreement was made by me to have "loaner UBS drives mailed to me. Their was No advanced noticed of a package being delivered and or returned. And as you are aware of the overly extended time that the CVMVCD had granted itself to obtain easily accessible CVMVCD Public Record's was Inappropriate and has shown the ability of the CVMVCD and it's legal counsel to negatively impact the Public's access to CVMVCD retained Public Record's in a timely manner if at all.

Also in the December 18, 2019 SBEMP letter it was stated that I cancelled "the" appointment of December 9, 2019. Please understand that the appointment was Illustrated by me only, and was never confirmed by the CVMVCD. And most Importantly, was my safety from the continue negative influences and false accusations like the ones that were made in the CVMVCD legal counsel letter of December 18, 2019. The CVMVCD has clearly failed to respond in an ethical matter to my public records requests. Enclosed with this letter are two (2) New (up-graded – original packaging) USB drives (SanDisk – Cruzer Glide 32 GB) for the CVMVCD to use in any matter it wishes (replacements for non-agreed upon loaned USB drives)

DISTRICT INVESTMENT PORTFOLIO 1/31/2020

The District's investment fund balance for the period ending January 31, 2020 is \$12,025,583. The portfolio composition is shown in the pie chart. Local Agency Investment Fund (LAIF) accounts for 46% of the District's investments; the Riverside County Pooled Investment Fund is 31% of the total. The LAIF yield for the end of January was 1.97% and the Riverside County Pooled Investment Fund was 1.86%; this gives an overall weighted yield for District investments of 1.59%.

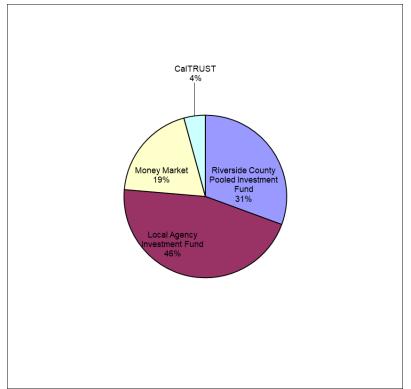

Figure 4 - Investment Portfolio 1-31-20

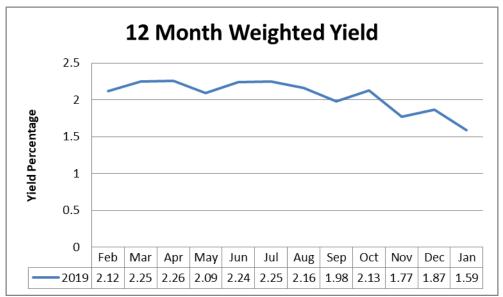

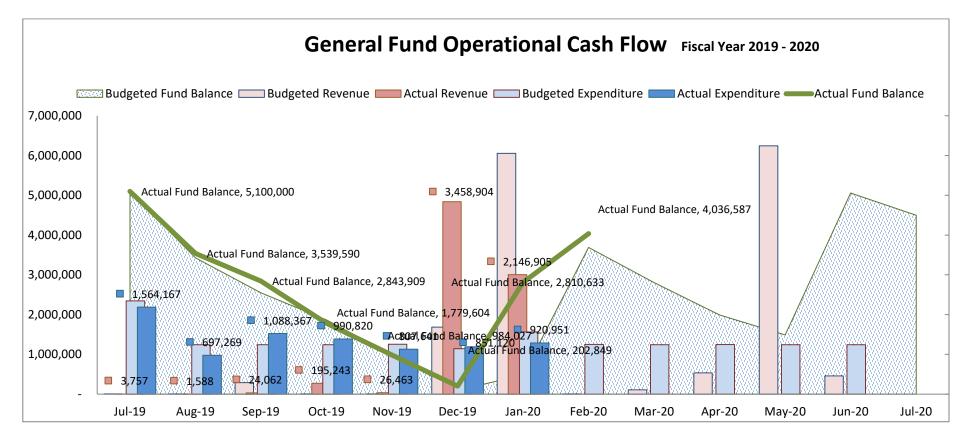

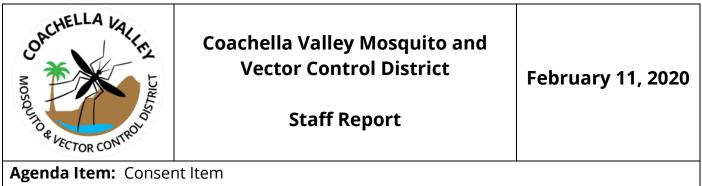

Figure 5 - District Investments Weighted Yield

The **General Fund Operational Cash Flow** graph outlines the District's working capital for the fiscal year July 1 2019 to June 30 2020. The beginning fund balance is \$5.1 million and ending fund balance is \$4.5 million. Expenditure is approximately divided by 12 equal months, with some differences accounting for the seasonality of the program for example control products and seasonal employment which are greater in the mosquito breeding season. July expenditure is higher than average because of the prefunding lump sum of \$750,000 for CalPERS unfunded liability. The budget also accounts for prepayments. The revenue follows a different pattern, Riverside County distribute the property tax revenue in January and May with advancements in December and April.

The *shaded area* represents the **Budgeted Fund Balance** which has a formula of (beginning) **Fund Balance** plus **Revenue** minus **Expenditure**. The *green line* represents the **Actual Fund Balance** and is graphed against the *shaded area* **Budgeted Fund Balance**.

The graph shows for June 1 the \$5.1 million **Fund Balance** plus total Revenue for July 1 to January 31, 2020 of \$5.8 million minus total Expenditure of \$6.9 million is \$4.0 million. For planning purposes the District is slightly under budget, showing expenditure is \$245,370 less than budgeted. Revenue is higher than budgeted by \$100,000, with Property tax and Benefit Assessment receipts higher than anticipated. As long as the green line stays out of the shaded area the District is within budget, as of January 31, the line is outside the shaded area.

Discussion and/or approval of Resolution 2020-02 Adopting Employee Pay Schedule, in conformance with California Code of Regulations, Title 2, Sections 570.5 and 571 - Anita Jones, Human Resources Manager

Background:

On August 10, 2011, CalPERS adopted California Code of Regulations (CCR) Title 2, Sections 570.5 and 571(b), which set specific requirements for making pay schedules publicly available. The stated purpose was to ensure consistency and enhance disclosure and transparency of public employee compensation.

In order to fully meet the requirements of these regulations, the pay schedule must list a position title for every employee position, show a pay rate for each position, and indicate the time base for the pay rate (hourly, monthly, annually, etc.). This pay schedule updates the General Manager's pay rate. The pay schedule is included in the attached resolution as Exhibit A.

Staff Recommendation:

Staff recommends that the Board of Trustees approve Resolution 2020-02.

Coachella Valley Mosquito and Vector Control District

Staff Report

Agenda Item: Consent Item

Approval to renew the annual agreement with Salton Sea Aerial Services, Inc. to conduct both aerial adulticiding and larviciding aerial applications in an amount not to exceed \$1,650 per hour for daytime applications and \$1,850 per hour for nighttime applications from fund 9000.01.500.0000 - Operations Contingency Fund; Budgeted; Funds Available - Roberta **Dieckmann, Interim Operations Manager**

Background:

Currently, the District has a control contract with Salton Sea Aerial Service, Inc. to conduct adulticide or larvicide applications. The District guarantees the contractor a minimum of 14 hours of work per year to ensure standby availability. In proposed current renewal there will be adjustments to the hourly rates per the following schedule:

- 1. \$1,650.00 per hour for aerial applications made during daylight hours.
- 2. \$1,850.00 per hour for aerial applications made after dusk or pre-dawn.

Needs Assessment:

The application of control products by air in inaccessible areas such as the Salton Sea marsh habitats and where large applications are required, as in duck club habitats and the wetland marshes are often applied by helicopter rather than truck-mounted equipment because of accessibility and time saving benefits. The need for this approach to mosquito treatments will continue in the future. In addition, helicopter service provided by Salton Sea Air Service, Inc. can also apply larvicide and adulticide products to all urban areas of the Coachella valley, if it becomes necessary based on arbovirus indicators and for the control of urban mosquito vectors.

Staff Recommendation:

Staff recommends renewing the agreement with Salton Sea Aerial Services, Inc.
